### What is PRITS?

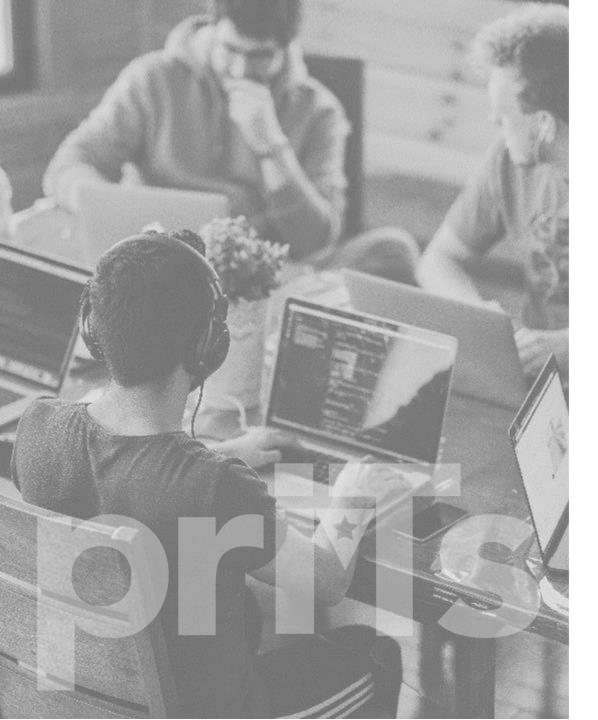

- Government start-up created by virtue of Act 75-2019 on July 25, 2019.
- Responsible of public policy regarding innovation, technology and information management.
- Impacts <u>all</u> priority areas of the government.
- Serves and supports <u>all</u> entities of the Executive Branch of the Government.
- Can serve municipalities and other branches, as requested.
- Evaluates all innovation and technology acquisitions and projects proposals for the Executive Branch.

### **PRITS** Objectives

- Promote the effective use and integration of innovation and technology in Government
- Facilitate technology integration and information exchange among agencies
- Manage interagency innovation and technology projects
- Broaden the availability and access to government services
- Foster transparency of Government information and implement accountability systems
- Strengthen the development of human capital in innovation and technology fields
- Support the innovation ecosystem in Puerto Rico

### Mission and Vision

### Mission

To set in motion and enable the transformation of Puerto Rico that will result in new knowledge and real impact through innovation, technology and a collaborative hands-on approach to our challenges.

### Vision

To be a smart island where citizens experience and engage with a world-class innovation ecosystem that optimizes the development of human capital and results in economic growth.

### **PRITS** Principles

- Citizens are the protagonists of government activities
- Innovation efforts must revolve around citizens
- Government must develop integrated citizen experiences (holistic relationships, not agency focused)
- Innovation requires challenging status quo, assumptions, regulations, and laws
- Collaboration and diversity are essential to innovation
- Working in agile and iterative ways produce optimal results
- Government must use and communicate data and information effectively every day
- Government must be proactive (not reactive)

# PRITS is key... ...for government transformation.

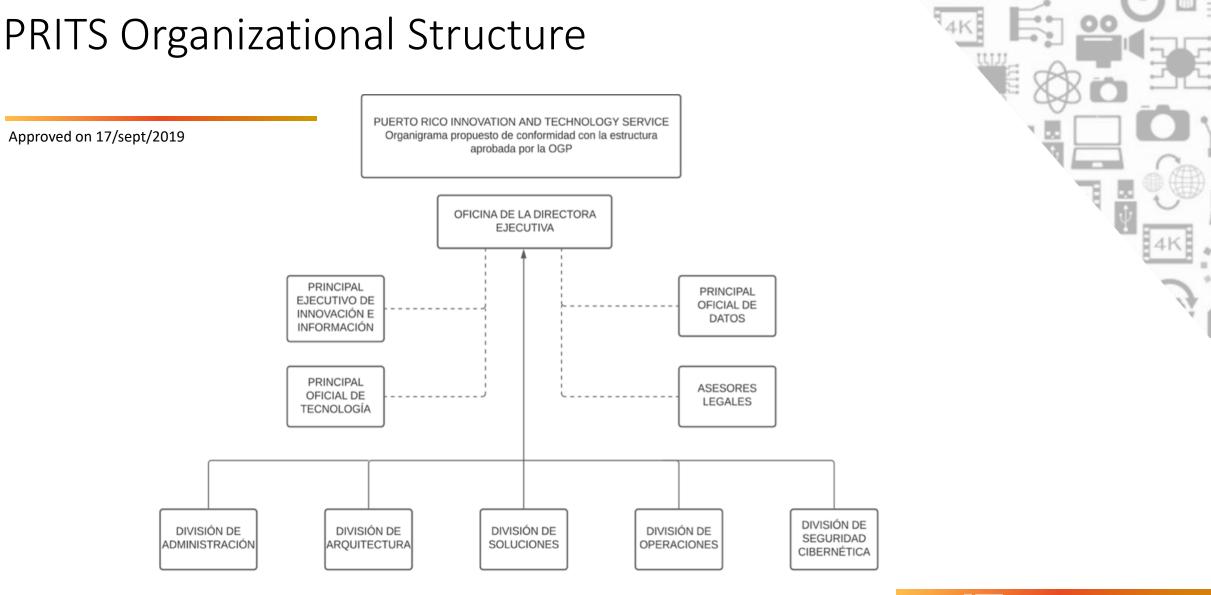

PRITS is a new and innovative government framework that uses modern standards of effective governance in order to meet the citizens' expectations consistent with the demands of the 21st century.

### **PRITS Role Structure**

- PRITS roles structure approval on 17/sept/2020 62 roles total
  - Currently using OGP's classification plan
  - Occupied 23 roles (22 of these were transferred from OGP)
  - Vacant/new creation 39 roles (4 currently pending approval)
  - "Destaques" 3, MOUs 3
- Includes innovation and technology government executive roles:
  - Chief Innovation and Information Officer (CIIO) Act 75-2019
  - Chief Technology Officer (CTO) Act 75-2019
  - Chief Data Officer (CDO) Act 122-2019
  - Chief Information Security Officer (CISO Director of Cybersecurity Division)

Specialized technology and innovation divisions

### Initiatives

### IT Strategy and Management

- IT Budget
- IT Organizational Structure and Human Resources
- IT Policies

• Digital Government

 $\mathbf{O}$ 

• Intelligence and Analytics

5

- Human Capital
- Ecosystem

# Technology

- Cybersecurity
- Data Centers & Cloud Services
- Telecommunications

# Fiscal Plan Implementation Actions

### Required implementation action

• Establish process and protocols for IT contract review of government agencies to create greater transparency on IT spend and needs of infrastructure or cloud services.

• Develop strategy to consolidate Cloud services and on-premises data centers with a detailed migration plan to drive consolidation of infrastructure during FY21.

• **Provide a structured and exhaustive portfolio of digital initiatives**, prioritizing by impact, feasibility and relevance for Central Government Agencies.

<u>کې</u>

۲× ×۵ • Ensure critical cybersecurity infrastructure, processes and control systems are set in place by PRITS and adopted by government agencies to minimize risks through clearly defined governance structures

Consolidate current personnel spending and establish cross-functional teams by identifying
personnel in government agencies with specialized technology skills to be centralized.

### PRITS 2020-2021 Budget

# •\$32.8M

transferred from OGP's budget:

- Transferred personnel
- Government-wide licenses
- Telecommunication services
- Operational costs

# •\$36.9M

new budget, includes:

\$69.7M

- \$2.5M for payroll
- **\$1.9M** for technology services
- \$30M for centralized technology initiatives
  - \$15M for cybersecurity
  - \$10M for data centers and cloud services
  - \$5M for telecommunications

# Circular Letter 2020-03 and Proposal Evaluation Guidelines (PEG)

### Circular Letter 2020-03:

- Governs the acquisition of goods and services, and projects of a technological nature
- Applies to all agencies of the Executive Branch
- Applies to all sources of funds, whether state or federal, and proposal amounts
- Agencies' Chief Information Officers are responsible for submitting proposal evaluation requests to PRITS

### PRITS-001 Proposal Evaluation Guidelines (PEG), based on:

- Industry best practices
- PRITS' own experience
- Input from Special Report TI-17-02 from the Office of the Comptroller

# Proposal Evaluation Guidelines PRITS-001

- Public Policy Alignment
- Needs Assessment, Design and Requirements

- Agency Preparedness
- Vendor and Solution Selection
- Cost
- Implementation Timeline
- Service Level Agreements (SLAs) and Warranties
- Knowledge Transfer
- Interoperability and Ecosystem

- Security Design and Monitoring
- Metrics
- Quality Assurance, Service Validation and Testing
- Release Management and Change Management
- Service Continuity and Disaster Recovery
- Data Architecture, Access and Ownership
- Infrastructure and Delivery Model
- Monitoring, Support, and Service Desk
- Emergency Proposals

### Citizen Engagement

### **Government Core Services**

### Centralized Cybersecurity Initiative (CCI)

Why CCI is necessary?

- Threats are complex and everchanging
- No unified strategy and central visibility of vulnerabilities and threats
- No visibility on cybersecurity spending and no central management of cybersecurity budget
- Current policies are outdated, compliance is limited
- Variety of technologies across government makes it more challenging to minimize risks

Cybersecurity and Risk Management is the #1 priority of all USA states according to *Top* 10 2020 Priorities for USA State CIOs by the National Association of State CIOs (NASCIO).

### Centralized Cybersecurity Initiative (CCI)

- Identify and remediate vulnerabilities
- Establish SOC to monitor infrastructure activity and threats
- Revise cybersecurity policies and compliance mechanisms
- Establish government-wide public policy (executive order or legislation)
- Educate government employees and citizens on related topics
- Strengthen operational capabilities to respond to threats and attacks
- Strengthen forensic analysis capabilities
